Yunus Ozen

AI Product Engineer

İzmir, Türkiye (open to relocation) | +90 552 750 88 92 | ozenyunusemre@outlook.com
linkedin.com/in/yunus-ozen | github.com/ozenyunus35 | ozenyunus35.github.io/yunus-ozen-portfolio

SUMMARY

Product-minded software engineer who takes products from the first idea to a live release: requirements, UX, team leadership and code. I use Claude Code and LLM APIs across the whole product cycle. Based in İzmir; open to relocating to the US, Europe, the Gulf or elsewhere for remote, hybrid or on-site roles.

EDUCATION

B.Sc. in Software Engineering, Fırat University, Elazığ, Türkiye — Expected 2027

OPEN SOURCE

115 merged pull requests in 33 public repositories (incl. Grafana, Gitea, Nuxt, oxc), each with tests.

- repowise (Python, TypeScript): 28 PRs in code ingestion, tsconfig references and route detection.
- ts-proto (TypeScript): 17 PRs to the Protobuf-to-TypeScript generator, e.g. grpc-web streaming.
- uutils/coreutils (Rust): 17 PRs fixing GNU compatibility in sort, od, join, split, csplit and nl.

EXPERIENCE

Product & Project Manager, Bi-Sevk (Bilkenler Lojistik A.Ş.) — Remote | May 2025 – Oct 2026

- Owned a logistics marketplace matching truck drivers with cargo owners: strategy, roadmap, UI/UX.
- Coordinated the web, admin and mobile apps (Kotlin, Spring Boot, React, Flutter) with live tracking.

Freelance Web Developer, Tavuk da Tavuk — Elazığ, Türkiye | Mar 2026

- Built a restaurant's corporate website and QR menu (Next.js, Supabase), mobile-first and in daily use.

UI/UX Designer, FMD Education Portal (The Cans Group) — Remote | Jan 2025 – May 2025

- Designed the UI, information architecture and user flows of an education group's management panel.

Product & Project Manager, Eyfel Kurye (Eyfel Yazılım) — Remote | May 2024 – Oct 2024

- Managed a restaurant and courier platform integrated with online ordering: product, UX, delivery.

PROJECTS · Live demos on the portfolio

- **Relay**: AI support assistant that answers from help articles with sources, hands off when unsure (Next.js).
- **Cadence**: Salon booking page and staff calendar with live availability and drag-to-reschedule (Next.js).
- **Lead Scraper**: Daily crawler that turns a business directory into a clean Excel lead list (Python).

AWARDS

1st Place (Elazığ), NASA Space Apps Challenge: built a Flutter app in 48 hours with team Innosoft. 2022

SKILLS

AI	Claude Code, LLM APIs (Anthropic, OpenAI), AI-assisted development, automation
